The following action is in response to the proposed supplemental amendment after-final received February 20, 2006. The examiner has approved entry of the proposed amendment.

Allowable Subject Matter

Claims 1-7, 9, 10, 12, 13, 15-36, and 38-53 are allowed. Claims 1-7, 9, 10, 12, 13, 15-21, 49, 52, 53, 22-33, 50, 51, 34-36, and 38-48 will be renumbered for printing as claims 1-49, respectively.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a centrifugal clutch as defined in claim 1 wherein one of the movable plate and fixed plate includes a plurality of ramps that are engaged by the weights, the ramps include first and second ramp surfaces, and the return spring selectively has a generally disc-shaped configuration.

The art of record also fails to show or teach a centrifugal clutch as defined in claim 22 wherein the ramp plate includes a plurality of ramps that taper radially outward and away from the ramp plate at an increasing angle with respect to the ramp plate, the cover module further includes a return spring member configured to apply a return force against the movable ramp plate or the movable reaction plate to bias each of the roller

weights toward a pre-moved position, and wherein the cover module includes only one return spring.

The prior art of record fails to show or render obvious a centrifugal clutch as defined in claim 34 wherein at least one return spring member is positioned between the reaction plate and the second weight engaging plate, the return sprung member configured to apply a return force against the first weight engaging plate through the reaction member to bias each of the roller weights toward a pre-moved position against the effect of centrifugal force, and wherein one of the first and second weights engages plates including a plurality of ramps that are engaged by the roller weights.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The amendment to claim 6 overcomes the objection set forth in the final rejection. Accordingly, the objection is withdrawn.

The amendment to claim 1 obviates the rejection under 35 USC 112, 2nd paragraph. Therefore, the rejection is withdrawn.

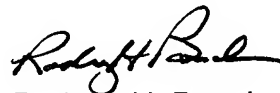

The claims as amended distinguish over the prior art as applied in the rejections under 35 USC 102(b) and 35 USC 103(a) in the final action. Accordingly, the rejections are withdrawn, and the claims are deemed allowable for the reasons set forth above.
